Subject: Draft OECA Reports for September - DUE 9/20 2 PM

Hi all --

Attached are the draft OECA updates for the period ending 9/21/17. Please send new items and your proposed edits to existing items to Ellen and me by 2:00 pm Wednesday 9/20 (and the earlier, the better please).

To avoid a last minute scramble (primarily by me) on 9/21, I have highlighted dates from the August reports indicating matters that may have actions in August, September or October. If the lead attorney has proposed updates to a highlighted item I deleted the highlight. If the matter has not been edited by an attorney the date remain highlighted. Please be especially careful ensure that the still-highlighted items and estimated action dates are as up-to-date as possible.

Since it has been a while, please review the following tips.

- Review each category to determine whether new matters may fit.
- For new matters, be sure to lead with the state's role, even if the state has no role.
- Note if a matter directly relates to oil and gas exploration and production.
- Include a note if a matter is part of a national enforcement initiative.
- If you have a CD going through public comment, indicate whether there are: no comments/no new outside interest, no significant adverse comments/no new outside interest, or public comments/interest under review.

Finally, if you update the document in Word, rename the document *only* by substituting *your first or last name* for the word *master* in the title.

Thanks.

Chuck

Charles L. Figur

Senior Enforcement Attorney for Hazardous Waste
Legal Enforcement Program (ENF-L)
U. S. Environmental Protection Agency Region 8
1595 Wynkoop Street, Denver, CO 80202-1129
